REPORTS:

- **Management report**

Quiz night was a good, fun night. V. successful. Will repeat next year, possibly introducing a second one. Raised \$2500 for surf club. Angela Stolwerk did a great job organising it. Busiest summer yet. Occupancy and Revenue up already on last Jan (Jan not over yet!).

- **Financial report**

Cleaning consumables down due to efficiency and frugality. Head housekeeper working hard at this. Electricity savings continue. Unable to say yet the financial impact of free showers. Overall expenses down by nearly \$7000 and income up by \$19,000.

- **WCSLSC Report (verbal)**

Busiest summer for a long time. Events every few nights. Club nights v. popular. Interested in feedback on weekday lifeguards. Maureen said it was a shame the full-page article in the Herald last week didn't feature Waipu. She added that the weekday (pro) guards had a lack of communication with the public and there more people swimming out of flags than in. She feels the club guards are much better than pro guards. She has v. high regard for the club patrols. Anton confirmed there have been more people not swimming between flags this year. Board are invited to the upcoming Easter dinner.

MOTION R.Pullan/R.King/All in favour

GENERAL BUSINES

- **Victoria University/Proposed study**

Will try to organise conference call with Victoria University (Jonathan Gardner) in next 2 weeks. Jonathan feels that it will be very difficult for anyone to determine what the problem is right away and that it is better to determine where the algae is coming from to start with. Andre feels sea sampling should be more of a focus of the proposal, rather than satellite imaging, modelling etc. John and Rick will try to achieve best outcome. The work will be published as is for a student's PHD. It probably won't be realistic to sell the results to recoup some of the cost. Rick pointed out that research must be 100% impartial so financial gain needs to be removed so as not to compromise the work. The Board, Rick & Andre LaBonte will have a say in choosing the student. This year (and last) there hasn't been a similar weather pattern as previous years and we haven't seen the weed in the same way. We did have the weed through the winter.

- **Beach Closure**

The beach was briefly closed due to high e-coli levels in the sea at the mouth of the stream. When contacted, the council advised managers that this was likely due to the test being down just after rain had flushed the stream out. NRC do the testing but WDC erect the signage. The camp were not advised of the test result or of the signage going up. Rick has contacted NRC manager responsible for community communications to avoid this happening again.

- **BMX Track**

The managers still feel the kids BMX track will be a good idea based on number of kids on bikes in the camp over summer. They feel the mini putt should be put on hold for now. The trampolines in the camp get broken regularly so managers are considering a bouncing pillow (as many other camps have) or something similar. The area proposed for the mini putt course should be cleared and used as an open space for now, for cricket etc. Screen fencing between will

be erected to provide some separation from campers. The Board supports clearing the whole area and installing just the BMX track. The managers randomly reward kids wearing helmets with ice blocks. The BMX track will be no helmet-no use. Responsible parents will hopefully monitor the track. It is estimated 8-10 weeks work to complete. Should it be necessary in future to ban bikes (there is currently no intention of doing this) the track could ~~would~~ easily be flattened.

- **Management Plan**

The submission process has begun. The public has until 30th March to make submissions. The plan dates will not be changed despite the hold-ups. Operative years remain 2017-2023 but Plan will likely be modified to become a 10-year plan at DoCs discretion.

- **IN COMMITTEE: (7.40pm)** Exclusion of the public

That the public be excluded from the following part of the proceedings of this meeting on the following grounds – Agenda items.

The general subject matter of each matter to be considered while the public is excluded, the reason for passing this resolution in relation to each matter, and the specific grounds under section 48 (1) of the Local Government Official Information and Meetings Act 1987 for the passing of this resolution are as follows:

General subject matter: Dispute between campers, ASH dispensation & Police complaint.

Reason for resolution: Protect individuals

Ground(s) under s 48 (1) for passing resolution: 48 (1) (d) and 48 (2) This resolution is made in reliance on section 48 (1) (a) of the LGOIMA 1987 and the particular interests protected by section 6 or section 7 of that Act or section 6 or section 7 or section (9) of the OIA 1982 as the case may require, which would be prejudiced by the holding of the whole or the relevant part of the proceedings of the meeting in public are as follows: s.7.(2) (a) protect privacy of natural persons

Managers' Report December 2019/January 2020

January is almost ending as we write this report, we will be finishing the month on a busy note with a full house over Auckland Anniversary weekend. We have had a very busy month, so not a lot to comment on – making this month's managers' report a fairly short one!

This peak season we have had consistently full occupancy almost every night since the 27th of December. We have been lucky with the weather, which has bought very little rain. Not great for the farmers but good for campers! Once again this year, we had a quiet and trouble-free New Year's Eve. This has been our busiest summer ever occupancy-wise, with things running very smoothly for the most part.

We have had very few maintenance issues and can report that the free showers have been a real hit with the campers! Not having to deal with the large amount of coins needed as well as blocked coin timers has made life far simpler.

This summer we held our first-ever fundraising quiz night at the Waipu Cove Surf Lifesaving Club, which raised \$2500 for their proposed shower block. This night was a huge success and we had great feedback from all who attended. We are planning on doing another one (maybe even two) next summer.

We have offered to have St John hold their monthly meetings in our all-weather room or surf club at no charge as a good will gesture and to acknowledge the help their volunteers give us with First Aid service over the peak season.

This week Waipu Cove Beach was briefly closed due to the results of water testing that showed unsafe levels of bacteria. Follow up testing was conducted a couple of days later, and the outcome was water was again safe for swimming.

Occupancy and Revenue – December 2019

Cabin Occupancy %

Revenue - Cabins (monthly)

Site Occupancy %

Revenue - Sites (monthly)

Cabin/site occupancies and revenues all showed an increase in December 2019 when compared YOY with December 2018. An extra cabin (K14) contributed to this increase, as did additional pre-Christmas bookings for powered sites.

Regards

Anton and Lucy Trist
